NOTICE TO

Pensioners and Soldiers,

THE undersigned, having had considerable experience in the prosecution of Pension claims, and in the mode of business at the Pension Department, and being all the necessary Papers and Blanks for Pensioners and to render will one on hand, and matters respecting the same. Patents secured in Europe and other countries.

Having had the advantage of personally explaining their inventions, and of consulting in person with them, in many cases, the principles of patent law, and the best mode of securing them, has enabled some of the defendants of inventors to obtain patents, when others, without such advantages, have failed.

The experience of fifteen years practice, an extensive collection of rare works, decisions &c. on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with access, at Washington, enable the subscriber to afford to inventors desirous of procuring Patents, assistance and information which in other respects might be difficult to attain.

R. R. LEDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R. R. LEDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in the capacity who had so much business before the Patent Office and there were none who conducted it with more skill, fidelity and success. I regard Mr. LEDDY as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

In offering to the community this really valuable remedy, for diseases of the throat and lungs, it is not our wish to deceive them in that it will cure all diseases, but frankly to lay before them the opinions of those from which they can judge for themselves. We think we have some of the strongest evidences of its virtues from which they can judge for themselves. We think we have some of the strongest evidences of its virtues from men whose characters for integrity and veracity will not suffer.

Many proofs of these virtues could be given, but we confine ourselves to cases both of adults and children.

I have found in it a remedy for colds and coughs, and pulmonary diseases.

LOWELL, Aug. 10, 1849.

Dr. J. C. Ayer:—I have been cured of the worst cough I ever had in my life, by your CHERRY PECTORAL, and never fail, when I have opportunity, of recommending it to others.

Yours, respectfully, E. D. EMERSON.

☞ Read the following, and learn that consumption is worth a trial. The following testimony can be relied upon, and the cure of the most distressing character.

UNITED STATES HOTEL,
Kingston, Mass., July 5, 1849.

Dr. J. C. Ayer:—Sir, I have been afflicted, with a painful cough, and all the symptoms of settled consumption, for more than a year. I consulted no one but myself, and tried to reach my case, until I commenced the use of your CHERRY PECTORAL, which gave me immediate relief, and I have found it has entirely restored my health in a very high degree.

Sewing by Machinery.

To Journeymen Tailors, Seamstresses, Employers, and all others interested in Sewing of any description.

SEVERAL attempts have been made to produce Machines for Sewing, but they were met with out many objections, and could be used to little advantage or profit.

SINGER & PHELPS' *Rotary Stitch Sewing Machine*, invented by Isaac M. Singer, and manufactured by Singer & Phelps, No. 19 Harvard Place, Boston, Mass., is offered to the public as a perfect machine, and will do every stitch and adapted to perform any kind of work, from the stitching of a ... to that of ... leather. The needle is straight, and ... particularly upon the table of the machine, affording room and opportunity to adjust the fabric in any way,—and the stitch may be regulated to any length, even ... of a hair's breadth.

The stitch made by this machine is one which will not ravel, when ... and the sewing can only be ... by cutting every second or third stitch. From 600 to 1300 stitches, according to the fabric operated upon, may be taken per minute.

To bring this machine to perfection, much labor and study have been expended upon it by the inventor, and the subscribers now offer the Rotary Stitch Sewing Machine, feeling confident that it will correct and, upon trial, with the recommendation here given.

The profits arising from the use of one of these machines, which sews with either one or two needles, is from five to six dollars per day. The operation is not confined to the manufacture of clothing only; but may be applied to sewing every description of linen, cotton, woolen, and most kinds of leather.

This machine, with ordinary care, is warranted to run one year without repairs, and will last many years. And it is so simple in its construction, and so easily regulated and understood, that any person of ordinary ability may operate it.

The price of one of these machines, which is worked by a treadle, and capable of sewing, ordinary linen, cotton or woolen fabrics, in a ... cord and twenty-five dollars, complete, with all ... for operation.

These machines are as beautiful and neat in their appearance, and they take up so little room, that they are an ornament to any lady's sewing apartment.

☞ An Agent (with whom exclusive arrangements will be made) is wanted in every city and town in the United States.

All applications for Agencies, and all orders enclosing money for machines, (which will be carefully packed to send to any part of the world,) as well as all inquiries about their adaptation to different purposes, will be promptly attended to by the manufacturers addressed to

President's Message

In our paper of yesterday we had before our readers a copy of the President's message, or a copy of which in the Republican extra we were in debted to the attentions of Major Carr the Postmaster in this city, or as having been favored by the Hon. in his letter-mail.

The message is a clear, calm statesmanlike document, setting forth in well chosen and appropriate language the views of the Chief Executive of the great Union regarding the important measures which affect the welfare of the country. There are no attempts at sheer and partial issues, but the general broad ground of the public peace and the public welfare is taken and sustained, (for) in a masterly manner to the distribution of the powers of the general government and how to bring out the entire duty of legislation, but at the same time does not shrink from assuming all the constitutional and appropriate duties of the executive department.

The message regards the Fugitive Slave Law as constitutional and acknowledges the duty of the President to see it executed, where the same time that its imperfections should be remedied by just and prudent amendments to suit the views of the people by the election to represent their views. It recommends immediate attention to the practical affairs of legislation.

The President strongly recommends Congress to adopt speedy measures instead of adjournment and to have regard to the adequate protection of home labor in order to revive the great business interests of the people among them the iron and coal interests.

The recommendation for a Bureau of Agriculture will meet with a ready and early response from the whole people particularly as it proposes to encourage, not by granting money, but by furnishing information. The department has done but little of late beyond the mere routine of its duties, but if conducted on the principles laid down in the message, it will become one of the most useful departments of the government.

The message is fully and forcibly conservative in regard to the powers and duties of the government and liberal and progressive in regard to improvements required by the rapidly swelling and increasing wants and necessities and accumulations of the people. It is especially recommended to every one to read this message through carefully and both with care and candid consideration. It is certainly a calm, truthful statement, and cannot be adjusted and is bound to be received and more commended as it is understood, and the leading recommendations are illustrated by experience.

Burning of the Insane Hospital

We gave a brief telegraphic account on Saturday morning of the burning of the Insane Hospital at Augusta. Despatches were received at several times during the day, but gave no particulars. From Augusta announcing that one fifteen or twenty lives were supposed to have been lost by the fire. It seems to us marvelous and beyond all belief, and we hope to be able before long to report the entire correct statement.

The fire was supposed to have taken from a defect in one of the chimneys and although the alarm was given by the patients no attention was paid to it till the building was filled with smoke, the alarm was supposed to be only the ravings of the insane.

The report that Mayor Norwood was dead was contradicted yesterday, and Mr Robinson, who was missing, has been found.

We learn that the Mayor has sent nurses from Augusta to bring to the city the patients, eleven or twelve in number, as we understand, who belong here. One report yesterday stated that young Harlow was among the missing. He is a son of Nath'l Harlow, Esq., one of our wealthy citizens.

How Impressive a Lesson!—Sentence of Tay

This notorious Burglar has been sentenced at Toronto to twenty years hard labor in the Provincial penitentiary. He was found guilty of the indictments and condemned to ten years on each. When he got to hear the judgment of the Court he was asked if he had anything to say why the penalty of the law should not be pronounced against him. He replied as follows:—

"No my Lord I have wasted the best years of my country. I have been tried by an impartial jury and convicted and I humbly bow to their decision throwing myself entirely upon the clemency of the Court. There are, however, two favors which I would ask of which I feel sure I shall have a favor from that kind hearted gentleman my own, though a portion of the money taken from me belonged to myself. The Crown witnesses unanimously agreed on the whole, truthfully defended me. The second favor is that when I am sent to the penitentiary they will intercede and have me to get some trade or profession, in order that should I ever be released from it I may be able to earn an honest livelihood. I attribute my present course of life solely to the circumstance that I was never brought to any trade. Should I not be taught any to occupy while in the penitentiary when I come out I will be friendless, homeless, penniless and friendless, and I must necessarily resume the old habits which brought me what I was before, remember."

Capt Vincent's Light Guard is one of the best military companies of New York in point of extensive arrangements to visit Liverpool, Eng., and Paris in June next. They contemplate chartering 150 strong, rank and file. One of the steamers is to convey them to England and back in furtherance of the design, one of the literary members of the corps has generously offered to subscribe $5000 towards defraying the expenses attendant upon the jaunt.

Eben Poole, Esq., the well known lumber dealer in this city, takes great interest in keeping fowls. He has a flock of Java hens that lay eggs which average five to a pound. The world moves a little something at a time, of that man in Gloucester who offered the premium at the Massachusetts hen convention.

We have received from the New York publishers, Messrs Leonard Scott & Co. their twenty-ninth number of the "Farmer's Guide to Scientific and Practical Agriculture," now in the course of publication, and richly worthy the attention of all engaged in the great art.

LAUNCHED.—A very handsome brig called the Whalom of about one hundred and fifty tons was launched from the ship yard at Ferry Point on Monday last. She is owned by Mr. Seth Smith and is to be commanded by Captain L. Keene.

Launched on Thursday last from the ship yards of B. Young & Co., a fine schooner called the "Leo" of about one hundred and thirty tons burthen.—Calais Advertiser.

Some of the English colonies in the Pacific Seas are growing a little restive under the British yoke. A letter from Van Diemen's Land to the San Francisco Courier says: "We must come to Republicanism at last—monarchy is worn out.

[G] I had quere ticket Operator Dodge, the well known vocalist will visit our city in a few days for the purpose of giving one of his popular concerts.—He has so many places to visit before he embarks in his spring for the World's Fair in London that he can only stop here but a few hours.

[D] Mr. Speaker Colfax stated at the reception in New York last week that it was his deliberate opinion that the report of the late Secretary of War to the Union from which the effort of South Carolina could save the country.

[D] The Mechanics Institute of New York has under consideration a plan of forming schools in the city at which Ornamental Designing is not what is taught, we believe anywhere in this country.

SAFETY—STABILITY—ECONOMY.

THE ÆTNA INSURANCE COMPANY of Hartford, have organized the *LIFE DEPARTMENT*, with a new and entirely separate Capital of

$150,000;

all of which has been paid in and abundantly secured.

This Annuity Fund is exclusively held, pledged and appropriated, with its reserved accumulations, by the charter and regulations of the Company, to the payment of annuities and losses upon Insurance on Life, and in no event liable for the other debts, contracts, liabilities or engagements of the Company.

The tariff of rates has been framed as low as is consistent with ultimate safety, and graduated with reference to the ability of the office to fulfil its engagements. The system adopted by this Company is believed to be the best adapted to secure stability and permanency on the part of the office, and at the same time designed to accomplish, in the most beneficial manner, the object and purposes of insurance. This system is attended with no vexatious or uncertain contingencies. Its leading idea is to ascertain precisely what it is worth to insure a given amount upon life for a certain time, and to charge precisely that sum and no more.

Tavern Stand and Store for Sale.

THE Tavern Stand and Store at East Corinth on the main travel Road from Bangor to Monse Head Lake, formerly occupied by E. P. Pearson and recently by Jacob Hooper is now offered for sale.

There are eleven rooms in excellent repair among the finishing,—the out buildings are large and convenient—a good well of water and many other conveniences on the premises.

The Tavern has an extensive run of business and a rare opportunity is now offered to any one who wishes to purchase. Terms liberal.

For further particulars inquire of C. P. PEIRSON, of Bangor, NATHANIEL CRANE, of Corinth, or JAMES HOOPER, on the premises.

DR. GAY'S

Blood Purifier.

THIS medicine recently for the cure of the following complaints, viz:

Humors and Diseases

of the blood, for which purpose the above cut is a correct picture of one quarter of the bottle, is universally acknowledged to be a very speedy, safe and well known remedy, and is highly recommended by the proprietor to the public.

SCROFULA.

Testimony of the Efficacy of DR. GAY'S *BLOOD PURIFIER* in the cure of SCROFULA.

This certifies that I have been afflicted with the Scrofula for the last 15 years, and have used many remedies, but found no relief until I commenced using DR. GAY'S *BLOOD PURIFIER*, which has entirely cured me. I have also used the *Blood Purifier* which, in my family, has proved beneficial in cases of Children troubled with Worms, Canker, Sore Mouth, &c. I have also used the *Fountain of Life* with good effect in cases of Dyspepsia, Liver Complaint, Costiveness, &c. I have also used the *Universal Ointment* with good effect in cases of Piles, Salt Rheum, Sore Eyes, Sore Legs, Ringworm, Tetter, Scald Head, Pimples on the Face, &c. I have also used the *Vegetable Liniment* with good effect in cases of Rheumatism, Sprains, Bruises, Burns, Scalds, Cuts, Wounds, Felons, Sore Throat, Pain in the Side, Back or Breast, Chilblains, Frost Bites, Corns, Bunions, Sore Nipples, Sore Breasts, Caked Breasts, Broken Breasts, Ulcers, Fever Sores, Piles, Tetter, Ringworm, Scald Head, Pimples on the Face, Salt Rheum, Sore Eyes, Sore Legs
